HEART INSTITUTE
INSTITUT DE CARDIOLOGIE
DE L'UNIVERSITÉ D'OTTAWA

University of Ottawa Heart Institute COMMUNITY REPORT 2013

A TEAM THAT TRULY CARES

We welcome the best researchers, physicians and educators in Canada. Across all specialties, our staff believes in team work and is inspired by a genuine sense of accomplishment.

RESEARCH ENDEAVORS THAT SAVE LIVES

Our Institute is alive with discovery, ingenuity, insight and invention. The extent of the research we undertake sets new standards of clinical care, gains scientific insight into heart disease, and contributes to the world's storehouse of cardiovascular knowledge.

STATE-OF-THE-ART APPROACHES TO PREVENTING HEART DISEASE

Heart disease is a leading cause of death in Canada, but it is preventable and manageable. We provide resources and programs to help you learn about heart disease, its causes, how to prevent it, and how to live with it.

A RICH, VIBRANT ENVIRONMENT FOR LEARNING

We are training the next generation of medical and research professionals, many of whom will go on to become leaders in their fields in Canada and internationally.

A NEW LEADER

"It is with pride, but also with modesty that I accept the new role of President and CEO of the Heart Institute. We often hear about how unique and world-renowned we are, but it is our nurses, our physicians, the researchers who discover new drugs, and all our support staff that makes us who we are. Over the next few years, we will continue to grow, but we will do so while keeping in mind who makes the Heart Institute so intelligibly distinctive."
- Dr. Thierry Mesana, President and CEO

A STATE-OF-THE-ART FACILITY

In 2013, the Province of Ontario reiterated its commitment to move ahead with the expansion of the Heart Institute. This facility will ensure our continued capacity to shape cardiovascular health, research and education for the coming decades and to provide you and your loved ones with outstanding patient care. **We are breaking ground next fall... stay tuned!**

LEADING IN CARDIAC CARE

The Heart Institute performed the most heart transplants of any hospital in Canada last year while achieving an outstanding 100% survival rate. Other Heart Institute programs are models of innovative care, including our Telehome Monitoring program to keep heart failure patients healthy at home and the Ottawa Model for Smoking Cessation that has treated more than 120,000 Canadians in over 200 sites across the country.

AN EXTRAORDINARY TEAM

The Heart Institute continued to excel with impressive patient satisfaction rates in 2013, positioning us among the best in Ontario for the care we provide, with a 99% satisfaction rate, and as the number one acute care hospital in Ontario that day surgery patients and families would recommend.

Joining the Heart Institute Family in 2013

Dr. Thais Coutinho, CARDIOLOGIST

Dr. Coutinho received her medical degree from the Universidade Federal do Rio de Janeiro in Brazil. Shortly after, she moved to Rochester, Minnesota, to pursue training in internal medicine, cardiology, vascular medicine, advanced echocardiography and research at the Mayo Clinic.

Dr. Aun-Yeong Chong, CARDIOLOGIST

Dr. Chong completed his medical training with first class honours from the University of New South Wales Australia, and later in the United Kingdom. He went on to do research at the Haemostasis, Thrombosis and Vascular Biology Unit at the City Hospital in Birmingham (UK). He earned his Doctorate in Medicine in 2006 from the University of Birmingham. He completed his cardiology training in West Midlands in England.

Dr. Girish Dwivedi, CARDIOLOGIST

Dr. Dwivedi completed his medical degree from the University of Delhi in India and his PhD from the University

of Manchester in England. He then secured one of the most prestigious clinical lectureships in the United Kingdom, the National Institute of Health Research Clinical Lectureship at the University of Birmingham, and was awarded the Certificate of Completion of Specialist Training in Cardiology.

Dr. Ellamae Stadnick, CARDIOLOGIST

Dr. Stadnick completed her undergraduate degree in biochemistry at the University of Alberta and a Masters of Science at the University of British Columbia. She completed her undergraduate medical training, internal medicine, and cardiology residencies at the University of British Columbia.

Dr. Diem Tran, ANESTHESIOLOGIST

Dr. Tran completed her medical degree from Queen's University and her anesthesiology residency at the University of Western Ontario. During the following academic year, she completed a cardiac anaesthesiology fellowship at the University of Ottawa Heart Institute. She also obtained a Masters of Epidemiology at the University of Ottawa.

We Are the Heart Institute

WE CARE

Patients come first

The Heart Institute is renowned for its clinical excellence and impressive patient satisfaction. Our patients and their families are at the centre of everything that we achieve, from our patient care to our research vitality.

WE HEAL

The power to do good

We are powered by caring, compassion and kindness. We deliver high-tech care with a personal touch. We help you learn about heart disease, how to prevent it and how to live with it.

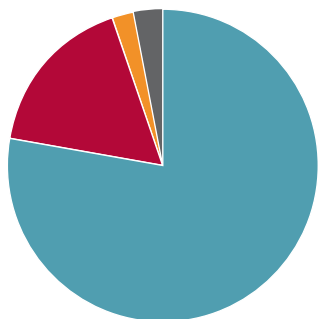

WE INNOVATE

Limitless research ambitions

The Heart Institute is an active leader in cardiovascular innovation and knowledge translation. We are putting the Ottawa region and Canada well on the road to be among the top international hubs in cutting-edge heart research.
